Art Unit: 1762

1. The amendment filed 7/6/04 has been considered and entered. Claims 1-17 remain in the application with claims 8-17 being drawn to a non-elected invention.
2. Applicant's election of Group I, claims 1-6 and specie 1 (Claim 7) in the reply filed on 12/31/03 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Species 2-4, claims 15-17 have been added to the application in light of finding the claims 1-7 allowable. Claims 8-14 have been canceled so as to pass the application on to allowance.
3. In light of the amendment and evidenced provided in the response filed 7/6/04, the objection to the specification and the 35 USC 103 rejection have been withdrawn.

Examiner's Amendment

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 8-14 have been canceled.

Reasons for Allowance

5. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest a method of fabricating a varistor with a zinc phosphate insulation layer wherein the phosphate layer is heated until transparent. The prior art fails to teach this limitation. Furthermore, Applicant provided evidenced to the fact that the "transparency" of the phosphate coating is critical with respect to the coating only being on the ends as well as an improved anti-etch characteristic.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian K Talbot whose telephone number is (571) 272-1428. The examiner can normally be reached on Monday-Friday 6AM-3PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Shrive P Beck can be reached on (571) 272-1415. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
